Advanced solutions for networked visualization

As no other visualization company, Barco knows the challenges of bringing critical sensor information to the operator. That's why Barco has been a trusted partner of the naval defense community for more than a decade.

Barco's network-enabled visualization solutions significantly enhance your mission effectiveness by giving you the power to see your high-resolution images and radar data in real-time, wherever you need them.

Visit Barco at Euronaval, from 27 - 31 October 2008,
at Le Bourget, Paris, France, Hall 7, Booth #C11.
