

NH90 NFH – Ready to meet the future challenges of Naval Warfare.

The naval variant of the best-selling NH90 family features a carbon fibre fuselage, full fly-by-wire controls for enhanced manoeuvrability. Large cabin, high level of safety and survivability against all threats, comprehensive Mission Equipment packages for an unequalled range of operations by day/night and adverse weather conditions. Think NH90 NFH without limits.

NH90 is a program in partnership with Eurocopter, Agusta Westland and Stork Fokker.
