Are you looking for a large ocean-going SSK equally at home operating in the littoral?

BMT provides impartial advice to government agencies acquiring new submarines; our expertise stems from our innovative support to current large platforms. Yet we are equally at home working with primes and ship-yards developing future submarine designs.

Contact us about Vidar-36, our 3600 tonne SSK design (video: tinyurl.com/vidar-36) or to discuss how we may help you.
